## Electronics

### Television

There are two smart televisions in the unit: one in the living room and one in the master bedroom. The living room also has cable television, which offers a handful of English-speaking channels. The living room television is high definition. Both are equipped with smart TV options, but we recommend using the Roku (one with each television) for a wider variety of smart TV options.

### NETFLIX

Netflix is available on both televisions. If you do not have a Netflix account, contact Aura Real Estate and they will provide you with login information.

### Keurig Coffee Maker

The unit includes a Keurig K-Elite coffee maker. We've provided you with some disposable coffee pods to get you started. **You can purchase additional coffee pods at the large grocery stores in Zihuatanejo, such as Mega Soriana and Bodega Aurrera.** In the event that you read this before coming to visit, we recommend you **bring additional Keurig-compatible pods from home.** (Please note that a 10-cup coffeemaker is also provided.)

## House Guide

### **Cooling Instructions**

There are two air conditioning units. One for the living room area, and another for the bedrooms. If you keep the balcony doors open during the day, please use the ceiling fans and turn off the air conditioning units.

### **Ceiling Fans**

There are 5 remote control operated ceiling fans in the unit: one in each of the bedrooms, one in the living room, and one in the extra room behind the kitchen. In the event that you are attempting to turn on the ceiling fan via the remote and nothing happens, flick the light switch as all fans (except for the one in the master bedroom) are also connected to a light switch which needs to be in the 'on' position for the fan to be operational.

### **Garbage + Recycling**

The plastic basket in the laundry area is for recyclables; the white bin in the kitchen area is for trash. Trash can be disposed of in the door on the landing outside the service entry. Recyclables need to be taken to the trash area at the first floor elevator bank. If you are only staying for a short visit, leave the trash and the cleaning crew will dispose of it for you. Additional trash bags are located under the kitchen sink or in the pantry.

## House Guide

### Laundry - Washer / Dryer

Instructions are written on the outside of the unit and laundry detergent is provided. Because of the climate, it is best to do laundry in the evening or early morning. Keep loads small, if you plan to use the clothes dryer. And, always remember to remove the lint from the lint trap. There are also two clotheslines in the laundry room, and clothes and towels dry quite quickly (often quicker than in the dryer) if you hang them to dry.

### Lights and Electrical Switches

With the exception of the floor lamp in the dining room area and the master bedroom ceiling fan, all the lights, lamps, and ceiling fans are controlled by a switch. This means that if you attempt to use a lamp switch or a fan remote control and the lamp or ceiling fan does not immediately turn on, then the wall switch that controls it is in the off position. **Additionally, please note that the lamps in the master bedroom have USB ports. If the wall switch that controls the lamps is in the off position, the USB function on the lamps will not be operational.**

### Refrigerator

Due to the tropical climate, food spoils more quickly here than in other parts of the world. It is recommended that you keep fresh items (such as breads, fruits, and vegetables) in the refrigerator so that they do not spoil as quickly. Also, **please note that for the protection of our guests, the water connection to the fridge has been disconnected.** Instead, use the purified water from the 5-gallon dispenser. Looking for cold water? There's a plastic covered pitcher that you can fill from the dispenser and leave in the fridge.

## House Guide

### **Front and Back Entry Doors**

You will be or have been provided with keys to the front door. You will receive 3 keys in each set. These are for the top and bottom front door locks, and a key to the locking drawer in the master bedroom closet. The back entrance is a service entrance. You can lock the service entrance from the inside of the home, but it is used only by maintenance staff when the condo is vacant. (You will also receive a numeric code for the keypad on the front door.)

### **Games & Puzzles**

Staying in for the evening? No worries. In addition to the Smart TVs, the home has a few books for your perusal. Also there is a 1000 piece puzzle in the living room area, and a 10-in-1 game compendium that includes everything from chess, checkers and backgammon to dominoes and a deck of cards. There is also a library of books to take and share in the lobby area.

### **Dishwasher**

The home is equipped with a Frigidaire dishwasher. Dishwasher soap pods are located under the sink. When the dishwasher is full, just pop a pod into the soap spot, close the dishwasher, and press start.

## House Guide

### **Bath Towels**

We're pleased to provide you with 8 imported luxury Hygro cotton bath towels for the duration of your stay. We've also provided 8 hand towels, 8 washcloths, 3 bath mats, and 1 kitchen towel. If towels are damp, please hang them in the laundry room or on the hooks provided in the bathrooms. These towels are to remain in the condo. Beach and pool towels are provided. (Note that there is a lost towel charge, so please try your best not to lose the towels.)

### **Beach & Pool Towels**

We've provided you with 8 authentic Turkish beach and pool towels. To avoid confusion, they are monogrammed with the condo number (502-S). The BVGM requires that you use these at the beach and at the pool. You're welcome to use these wherever you go throughout your stay, but please try your best not to lose them. There is a \$25 (US dollar) charge for each lost towel.

### **Shampoo, Conditioner, Body Wash, and Soap**

Each of the bathrooms is equipped with shampoo, conditioner, body wash, hand soap, and lotion dispensers. While the dispensers are refilled between guests, if you run out, please contact the local property manager to obtain more.

**Iron and Ironing Board**

If you need it, the iron and ironing board are located in the small closet in the second bedroom (the one with the green pillows).

**Hair Dryer**

If you need it, the hair dryer is below the sink in the master bathroom.

**A Word About the Climate**

The tropical climate affects everything... from the furniture to the lights and even the kitchen utensils. If something looks a little bit spotted or the color is a little off, it is likely not dirty, but is experiencing the impact of residing in a tropical climate. If you notice some item that is experiencing the ill effects of the climate, we hope you will let us know.

**Ring Doorbell**

You've probably already noted that the condo complex is extremely secure. However, for the safety of our guests, the entry to the condo is also monitored by a Ring Video Doorbell with motion detector.

**Purified Water**

We recommend drinking only purified water (that's why we disconnected the water dispenser built into the refrigerator). For your convenience and safety, we've provided you with a 5-gallon bottle and dispenser in the kitchen area. If you need another 5-gallon bottle, please contact the reception desk. The cost of an additional bottle is 30 pesos, payable upon receipt.

**Within Walking Distance (or a very short drive)**

**There are all sorts of restaurants and shops just south of BVGM on the opposite side of the street. Here are just a few of the most popular ones:**

**Ruben's Hamburgers**

Just like the name says, it is pretty much just burgers and fries. It's a safe bet, if you have a hankering for a burger. (Informal. Moderately priced.)

**Emilio's Pizza**

Pizza, pasta, and salad... traditional Italian-style cuisine. (Informal. Moderately priced.)

**Sr. Taco Grill**

This is your pretty standard Mexican fare. They even sell hats and t-shirts with their logo on them. (Informal. Moderately priced.)

**In Zihuatanejo****Hornitos**

This is definitely your *abuelita's* taco shop. Located on the main drag, you and your entire extended family will eat well and it's dirt cheap. (Informal. Very low prices.)

The path ends at the cocodrilarío (Crocodile Farm) next to Playa Linda, where you'll see tons of crocodiles, iguana, and exotic birds. After checking out the crocs, grab a cold drink from a nearby vendor or the Oxxo across the street before heading back. (The path is relatively flat, but does have a handful of hills. Small children may want to ride tandem with adults.) Bike rental at Bici Ixtapa on Blvd. Paseo Ixtapa or sign up for a guided bicycle tour online or at a local travel kiosk.

Wherever you put down your towel, there will be plenty of other children and lots of adventure activities available: parasailing, jet skiing, and even getting pulled through the water while seated on a giant inflatable banana. (Pro Tip: Park at La Perla Restaurant and grab some beach space there. And, if the kids' permit, give yourself an hour for an authentic Mexican massage right next door.)

### **Isla Ixtapa - Ixtapa Island**

## Getting Around

### **Taxi**

While Uber has not yet arrived in Ixtapa, you can take a taxi to just about anywhere. Ask the porter or the lobby attendant to call one for you, or venture out onto Blvd. Ixtapa to hail one on your own.

### **Car**

While it may seem a little confusing at first, Ixtapa and Zihuatanejo are pretty small and fairly easy to navigate. If you've driven, then use Google or Apple Maps to get around on your own. Or, you haven't brought your own car, you can rent a car at the airport.

### **Bus**

The bus stops in front of the Bay View Grand Marina on Blvd. Ixtapa and you can take the bus to Zihuatanejo or just down the street if you don't want to walk. Ask the lobby attendant for more information and latest fare information.

We hope you enjoyed your stay with us! Meet the local property manager at the unit to do a quick walk through to assure you haven't forgotten anything. If you would like a later check-out time, please contact the local property manager and we will do our best to accommodate your request.

### **Laundry**

Don't worry about making the bed as we will be washing all the sheets and coverlets anyway. If you want to go the extra mile, you can peel off the sheets, and place them in a pile on the bed. It's not really necessary, but appreciated.

### **Key and Parking Pass**

Please lock all of the doors and windows and return the parking pass to the security guard as you exit the complex.

### **Perishables and Leftovers**

Just leave your perishables. You'll be on the road or getting on an airplane – it's more convenient for you to leave it, and we will take care of it.

## FAQs

Maybe you've been to Mexico before... maybe you've even been to Ixtapa before. For those who have not or are just curious, here are the answers to some of the most frequently asked questions:

### **Is the tap water safe to drink?**

While the BVGM facilities do state that the tap water has been treated, we recommend drinking only purified water (that's why we disconnected the water dispenser built into the refrigerator). For your convenience and safety, we've provided you with a 5-gallon bottle and dispenser in the kitchen area. If you need another 5-gallon bottle, please contact the reception desk. The cost of an additional bottle is approximately 30 pesos, payable upon receipt.

If you want to be uber careful, use the purified water when brushing your teeth or when washing fruits and vegetables. When in restaurants, order bottled water and do not put ice in your drink.

### **Do I need to worry about theft?**

Just like any other place in the world, there's always a risk of something being stolen. Take the necessary precautions, and do what you can to keep your items secure. Do not draw attention to your items of value when in public places, such as the beach or the marketplace. And, don't wander in "sketchy" parts of town.

RFID theft is increasingly commonplace in Mexico, so we suggest that you protect your credit cards (and your passport) when in public places. For your convenience, we've given you a key to a lockable drawer in the master bedroom closet.

## **What's the deal with the wastebasket next to the toilet?**

When you are out and about in Ixtapa/Zihuatanejo, you may notice that there are wastebaskets next to the toilets and that are filled with toilet paper.

That's because there are places throughout the country where the pipes are so narrow that they cannot accommodate toilet paper. (I don't think we need to say more here.) Note that you are safe to flush tp at BVGM; but please place any flushable wipes and other items in the wastebasket.

## **Can I negotiate in the markets?**

Yes, no, and maybe. Anyone who has taken Spanish in school has probably learned that you can negotiate your price in the open air marketplaces. However, lately we've noticed that the vendors are fairly firm on their prices. But, feel free to give it a try!

## **What are those flexible plastic or rubber circles over the drains?**

If you haven't seen them yet, you will. They may be in the condo, or in a public restroom. They resemble the old school rubber grippers that you use to open a jar. Believe it or not, these are used to cover the drains. Because of the warm and humid climate, sometimes an unfortunate smell or little creatures may come up through the drain. To avoid this unfortunate fate, drains are kept covered, except when in use.
